The school system is just one of many town services provided to our residents, but is also the heartbeat of this community!

The Mendon Upton Regional School District is in the bottom 28% of the 351 cities and towns across the Commonwealth for per student spending.

7 out of 9 town officials from Board of Selectmen  
& Finance Committee Support the Override.

This is not a “school” issue. This is a community issue. To preserve, protect, and advance our community we must say YES to move FORWARD.
